1. Reasons for loss or inadequate profits	The Indian Economy, particularly infrastructure sector (construction), is passing through one of its most challenging phases. High costs of funds coupled with overall economic slowdown have impacted profitability adversely for the sector. Delays in payments from the clients have affected cashflows and this, coupled with overrun due to delay in Right of Way, supply of drawings / design, etc. by clients have impacted costs of execution which in turn have had an adverse effect on revenues and profitability. Compensation for cost overruns are being pursued with the clients, wherever possible.
---	---

During the quarter ended March 31, 2015, the Company has signed a definitive agreement with the National Highways Authority of India (NHAI) under which both parties had agreed to settle all awards received, claims under consideration at various forums, pending disputes and amounts outstanding in the Company's and joint venture's books of account under trade receivables and unbilled work-in-progress in respect of all the contracts executed by the company and Joint Venture. Pursuant to this settlement the Company including its share in Joint Venture has accounted for the resultant loss on the settlement of Rs.12,397 lakhs which has been disclosed as an exceptional item during the quarter ended March 31, 2015.

While the work in hand has substantially improved, the new contracts have not yet commenced in full earnest, thereby not contributing to the turnover / profitability of the current year 2015.

2. Steps taken or proposed to be taken for improvement
- The Indian economy has started its recovery and market sentiments has improved considerably. Inflation has started coming down. This should result in increase in industrial production and expected reduction in interest rate.

The Company is pursuing compensation for such projects. The results of this are expected to come through on completion of the settlement process. Orders inflow has shown visible sign of improvement. The Company's foray into industrial structures foresees good opportunities to grow in this area. With improvement in orders inflow, the revenues and profitability will improve in future.
