

Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

Policy Objectives

The Company endeavours to engage with Government bodies, Industry Associations and Trade Organisations.

The Company participates through active dialogues presenting its views. Our objectives with these Institutions / bodies are for the betterment of public policies and support issues on the impact of policies on the industry and mutual interests of the stake holders, be it with regard to new policy, consultations or presenting views of the stake holders to the Institutions / Government.

Scope of the Policy

The policy is applicable to all the employees of the Company.

Principles of the Policy

The Company shall provide its expertise and business acumen and participate with relevant Institutions / bodies and Policy makers towards bringing about changes in the policy, if any, processes and regulations to address the overall business interests and ensure ease of operation and compliance. Wherever need be, we shall provide constructive feedback and views towards policies, keeping in mind the larger interest and present Company's views.

Interface with Institutions

The Company interacts with a number of Institutions including some major Institutions / bodies like:

- Construction Federation of India (CFI)
- Bombay Chamber of Commerce & Industry (BCCI)
- IITs and National Institute of Engineering and other leading Engineering Colleges.
- National Institute of Construction Management and Research (NICMAR)
