

Pen Point

All our Project sites across India celebrated the 48th National Safety Day (NSD) and Company Safety Week with full enthusiasm. Celebrating NSD and Safety Week in unique way involving staff, workers, clients and other stakeholders is an excellent way of creating awareness and a step closer to developing Safety Culture. We have included few good photos of celebrations organised at Project sites, HO and Branch offices.

From this year, instead of calendar year we will monitor KPI data from 01 April 2019 to 31 Mar 2020. Also in addition to participating in NSC awards, we are also planning to apply for the International Safety Award from British Safety Council (BSC). We will need full support from concerned project sites. Generally BSC focuses more on system development & implementation.

At sites we undertake many Critical & High Risk activities and also execute them to the satisfaction of client and authorities. Deputing competent & experienced workers for such critical jobs will not only help in getting uninterrupted production but also could be completed in stipulated time frame.

We have prepared an Action Plan for the migration from OHSAS 18001:2007 to ISO 45001:2018. We have kept a target to review Policy, Procedures and Formats by Jun 2019 and will go for Recertification through DNV-GL in Nov 2019.

Safety Slogan - सेफ्टी स्लोगन

तीन अक्षर का नाम है सुरक्षा, जीवन का वरदान है सुरक्षा।
मेरे तन में प्राण है सुरक्षा, मेरे परिवार का संचालन है सुरक्षा।
ये शब्द नहीं एक ज्ञान है सुरक्षा, कार्यक्षेत्र में या रूह बाहर।
हर पल हर पग में रखू सुरक्षा, जीवन का वरदान है सुरक्षा।
